THEN

THEN

In the year 2000 buying education is impossible for Dalits. For such children CARDS taught through BalaBatas.

NOW

In November, 2011 speaking at an occasion our state governor Sri Narasimhan said that education has become very expensive, seats. The children have begun to inculcate the feeling that anything can be bought with money. This concept of buying education is to be changed. Education should be at the reach of everyone.

THE PERCEPTS I LIKED

To the respected director of CARDS from Chandraiah, RCO, Karimnagar.

I read and understood the BalaBata edition of September–October month. I told the ACO's and D.O's to by heart it. The school teachers should also read these concepts and make the children unite them. Of all I liked the precept. "A mistake committed leads one to learn a new thing". This is proved true in my life. All these precepts are to be learnt and practiced.
