CARDS News Letter December - January 2015 ,Dr. P. Ranjan Babu, Director

Photo of Sir G.Duyakar, MLA, Mancherial, Adilabad (Dist) speaking in the meeting of D.O's in Itikala village. RCO Ravi, Amarnadh, RangaRao, ACO & Do distributing clothes on the occasion of Christmas. While speaking on this occasion Sri Dayakar said that CARDS the voluntary service organization must be praised for its effort to bring progress in dalits education. The organisation's service in Education, health and economic fields is praise worthy, he also said.

The Balabata D.O's meeting was held in the local Minority hall on 14-01-2015 in Bhongiri, Nalgonda (Dist) with prakash as president of the conference. Speaking on this occasion Sri K.Yesuratnam said that Balabata will strive hard to bring social change in Dalits and in Balabata works for the progress of the parents of the Children of Balabata in Education and Economic fields. He also said that the BALabata D.O's are to be congratulated for developing their education and at the same time striving for the progress of their companious. While speaking Rajani said that Balabata strives with the aim of providing

education to women. The chief gust Heela said that the songs and street plays attracted her very much. Dr. Frank Viswanadh, Deputy Director. T.Amarnadh also participated.

Children's rights – Safeguarding

The role of today's children is very necessary for the establishment of new construction. Today's Children will become tomorrow's builders of constitution. But in our India 80 lakh children have not set foot in schools. United Nations organization described children's fund as national emergency situation as 8 crores children are dropping out of elementary school education. It also gave a call that the governments and civil society should implement the act of 2009 that education right should be provided to the children freely and compulsorily. Though there appears to be some progress in the implementation of this act during the last three years, still so many children are giving up their education.

It is quite wrong to think that they are giving up their studies to help their families by doing some work. They are avoiding school going because there is nothing to learn in the school. The Vice Chancellor of the university of National Educational programme and ruling prof. R. Govindam declared that during the last 3 years 1.12crores children additionally joined schools and the differences between gender and social groups have lessened. Even then the numbers of drop outs have not lessened in a recognizable level. Presently the rate of drop outs in 1st to 5th class (Primary level) is 27% and 1 to 8th class (Elementary level) is 41%. 13% students have not reached high schools from elementary schools. Accommodation is not being provided to the children of the emmigrants.

Children's rights

- 1) Basing on the sources of nation, religion, language, status and wealth no kind of discrimination should be shown regarding children's rights.
- 2) Special security must be provided to children proper opportunities must be provided lesislatively and other ways for the development of children physically, mentally, ethically, religiously, socially in a free and healthy atmosphere.
- 3) Since their birth children should have clear nationality.
- 4) Children should enjoy social security advantage. Opportunities must be provided to them to grow healthily.
- 5) For the children who are physically, mentally and socially weak, special arrangements must be implemented for their nutritions food, education and security.

- 6) For the children's growth love and affection must be shown towards them. Children should naturally grow in the protection of their parents.
- 7) Free and compulsory education must be provided to the children at least for the primary level. Equal opportunities must be provided to develop their knowledge, culture, and abilities. They should develop their reasoning faculty and social responsibility and become useful members of the society. Complete opportunity must be given to children's sports and games.
- 8) At the time of providing security help children must be given the first preference.
- 9) Children should not be victims in any way to carelessness, cruelty and exploitation. There should not be any hindrances for the physical and mental progress of children.
- 10) Children should be kept away from the practices which foster differences like nationality and religion. They should be grown up in an atmosphere of understanding, Patience, Friendship, Peace, fraternity, human service, morality and honesty.

K. Babu (RCO)

RCO's Repot

I, Gorre Jacob, (Balabata ACO) am informing you about the opinions of all in patram where Jagityala Balabata is conducting. We first conducted Balabata in patram. Many opposed it. Initially they were of the opinion that Balabata students will be joined in CARDS's college. CARDS's service for dalits and orphans which is liberation through education is not for education and employment. As the parents of DO's observed it they are sending children of 1st Class to 5th Class to Balabata. The ward member of dalit wada and village sarpanch observed this and said that they have not understood this primarily because many organization came for money. But CARDS organization came for the rights and education of dalits. More over they expressed their heartfelt salutations to Dr. P.Ranjanbabu for his programmes and requested us to start Balabata in two places instead of one place. I invited then MLA Ramana to attend Balabata programme on 28-10-2012. He said that he would come if he had time. He attended the Balabata programme. Then D.D Babu Rao explained why Dr. P.RanjnBabu is conducting Balabata and the four items of Balabata. While speaking MLA Ramana said "I don't know that so many poor and orphans are in my constituency. CARDS organization has brought all of them to my presence. If I had not come to this programme I would not have known the problems of the

students. My heartfelt regards to Dr. P.RanjnaBabu for taking up such programme." Nalla Syam, V.M.P.P participated in the Gollapalli Balabata Programme. On seeing Balbata children's and D.O's drill, oath, songs and sports, he said that Timbrel and drums are not only for poor students but every dalit child will get education with sports and songs and they gain metal happiness. "As there was no such support and as I was unable to overcome my poverty, I was distanced from education. I am doing my help to my dalit race as a dalit. I will go on serving my dalit race until the expiry of V.M.P.P post. Not only that, in our community we must gain economical progress for this in each village with the dalit groups chit was started. I congratulate Dr. P.Ranjan Babu for taking up so many progressive activities for the sake of dalits.

Chi. Ravindra, Dist.President, Ambedkar sangh attended Balabata as chief guest. "When dalits are facing many problems with their backward ness in eduction, Dr. P.RanjanBabu realized that without education dalits would not gain progress in the society for it he is praise worthy. In this movement, which was started with the aim of spreading light to each and every one, I will extend my whole hearted support, and see that the dalit society which is lagging behind in education will be promoted. So many dalits are still becoming slaves to the dalit opponents and desiring difficulties Dr. P.Ranjan Babu started CARDS to see that these dalits will grow up as educators. "None is superior to me and I am not inferior to anybody" was the motto of Dr. P.RanjanBabu. To fulfill his aim we heve to work for the progress of dalits and start many Balabatas".

Gorre Jacob (ACO)

Row of opinions of Balabata D.O's

To	respects to Balabata organization.
Sir P.Ranjan Baabu, Director, CARDS.	M.Srikanth, Warangal.
Sir,	-----
I am working as D.O in Balabata. I am conducting classes from 5p.m to 7p.m	To
Every year we have been admitting two poor students from Balabata in the Residential Hostel with Balabata organization so many poor students are able to gain education. My heartfelt	Respected RanjanBabu, Director, CARDS
	My heartfelt respects. There are 40 students with me in Balabata. I conduct Balabata from 7.30a.m to 8.30a.m I teach them education with

sports and songs and growing kitchen gardens. We are given provisions every month. them education with sports and songs and growing kitchen gardens. We are

M.Ankitha, Warangal (Dist)

To

Dr. P.RanjanBabu, Director, CARDS
I teach the oath every morning then Balabata songs and drill. When the students come from school in the evening, I make them do their homework. Children come to Balabata regularly everyday . Balabata must be helpful to us in our village.

P.Suresh Kumar.

Mine is Dharmaram (Mandal), Kareem nagar. I received seeds last month. They are called Balabata seeds. They are known for the last some years. We are so much benefited by them. The enthusiasm the children get is more than mirch seeds. The children are habituated to see the plants when they wake up in the morning. They have work to protect the plants and when the trees yield fruits and they are being used by the parents, the children are getting much happiness. It is all good as kitchen garden growing has become a part of Balabata.

B. Rajasekhar, Kareemnagar (Dist).

To,
Respected Dr. P.Ranjan Babu,
Director, CARDS.

Sir, I am working as D.O in Itikyala Balabata. I am conducting Balabata properly. In this month, as part of "Swatcha Bharat" (Clean India), I along with my Balabata students cleaned my church surroundings and our street. For it our village sarpanch felicitated us. The seeds given by you were planted two months ago and we reared them by watering every day. They have now yielded vegetables. We are consuming them now for a large extent our expenditure for vegetables is lessened. I am very happy as my mother is admiring me.

K. Swathy, Adilabad (Dist)

I am Raju. I am working as D.O in Illemma colony. There are 40 students in Balabata. Children are participating in Balabata with songs and sports. Thanks for starting Balabata in our village. I am very happy for working as D.O. my heartfelt gratitude for the CARDS and Director for giving me this opportunity.

P. Raju , Kadapa (Dist)

I organize Balabata in the morning and evening every day. RCO Jayapaul also comes and makes the children

say the oath and sing songs. So many children are gaining good marks in the school. They are bringing good name to their parents. I feel proud to work as D.O.
Castla, Krishna (Dist).

Balabata supports were not in our village previously. You have started Balabata supports in the month of October in our palem. I conduct Balabata support as D.O from 6 a.m to 7 a.m and 5 p.m to 7 p.m. 40 students are regularly attending Balabata in the morning and evening. Balabata children attend Balabata neatly when their school work is over. I make the students study and do the home work given in the school. Children attend Balabata without fail. We teach them oath, songs, sports, quiz, dictation. So they like to attend Balabata and do their home work. As D.O I take the attendance of the students regularly. They must be neat and clean. They must come with neatly combed hair and washed clothes. By saying so I brought a great change in them. I and myself joined students in Residential school and Kasthuribai by attending 4th class exams. We thank Director Dr. P.RanjanBabu and Rev.Dr.P.Frank Viswanadh for establishing Balabata in our village.

J.C. Prakasam (Dist)

R.C.O'S Observations and feelings

About educational opportunities for the economic progress of dalits:

1. Untouchability no education since old ages. The reason was in India according to man's code of law we, dalits, were kept as untouchables were sent out of villages, were not given wages, were kept away from villages, were not given opportunities to study and made us economically backward. One of the problems of ancient times. When my father went to a barber for a hair cut, though he went there at 10.a.m, he was made to sit aside and the barber refused to shave his hair saying that "You are a madiga and if I shave you the villagers told me that they would expel me from the village." Thus saying the barber made my father approach him for three days but sent him away without a haircut. With that my father was highly pained. But as my father had courage to protest, he

united the dalits of the village. They told my father to conduct hair cut himself to the dalits. Since then he not only did the work of a barber in the village but also went to four other nearby villages and did the barber's work. After the death of my father, since 1987, I, K.Elisha, took up the barber ship. It was decided to pay 8 kunchas for two persons. In our nearby village, Agrampdu Sammakka, Sarakka folk festival will be conducted every year. In that festival I have right to shave the heads along with other barbers. The incident happened at the time of my father has led to Ambedkar's philosophy and with RanjanBabu's thought have resulted in forming CARDS organisation which gave all kinds of support to dalits.

K. Elisha, Warangal (Dist)

I want to inform you that on 28-10-2014 I distributed provisions. MPP was invited as chief guest. While speaking, he said that so many families were benefited as the organisation is providing not only education but also joining the students in the Residential schools. Moreover as vegetable seeds were distributed the families were gaining economic benefit. The D.O's parents in my region are very happy and appreciating us. I do assure the Director that this year I will join more number of students in Residential schools.

K. Elisha, Warangal.

I am Dhumella Ella Swamy, RCO, Mahaboobnagar. I attended the training at Deenapur on 07-08-2014 and learnt about the Balabata Education system. Moreover I have learnt more about social change. It is my responsibility to develop my students in all fields. I will gain, more seats this year than last year and our students will shine in the enthrual field.

D. Yelleswara Rao, Mahaboobnagar (Dist)

With these cultural programmes we can think. We can keep the children of our race healthily. The aim of CARDS is to reach villages where Balabata is not established. We go there with these cultural forms and establish there new Balabatas. I liked the speech of our Madam about the sermon on the mount, fish and five pieces of bread and Jesus Christ. With the five breads and two small fish we have to provide education to our dalit children. We must extend

our helping hand for their progress.

N. Durga Rao, West Godavari.

In our Laksethipet region Balabatas are being conducted effectively. Mainly in this month our Balabata children participated in "Swatcha Bharat" (Clean India) and cleaned their villages, schools, streets, and churches. This year I am trying to make many children join the Residential School.

A. Ravi, Adilabad (Dist)

On 7th, 8th and 9th August, 2014, new DO's ACO's and RCO's training programme was conducted in Deenapur. I attended the programme with 5 DO's. I have learnt the following things in the programme. 1) Time management. 2) Importance of education. 3) Spreading flame of knowledge to 10 other members. 4) To shed ego and cultivate fondness. 5) To make them know with the help of word of mouth. 6) To join poor students in our CARDS college. I assure that I will always spread the programmes of our organisation.

T. George.

During the 3 days programme of Balabata training the main point I have learnt is "Education for all and inform 10 more people what we have learnt. Cooperating with all, making all know the importance of Dalit teacher training course and employment opportunities and the dalit poor students should not miss this

opportunity. In the training programme the participants were divided into 10 groups and they expressed their way of thinking. They gave me encouragement.

I. Jhonson, Kurnool (Dist)

A.C.O'S feelings and observations

Since I came here (Two days) I have learnt so many things. I thought that Balabata means educating the children. But after coming here I have learnt that Balabata is very important for dalit students.

Dr. P. Ranjan Babu learned that the reason for the backwardness of dalits in all the fields is mainly illiteracy. So he started Balabata with a view that education is a necessary implement and every body must be educated and developed.

In olden days, dalits were residing away from the villages, beside the dirty canals and near grave yards. After I have come here I have learnt what the dalits are losing with their life style, how they are being insulted by the upper caste people. And I have also learnt so many things which I have never been known. All the dalits must be educated, all must be developed and tread on the path of progress. The Balabata programme, started by Dr. P. Ranjan Babu with the objective of making all live equally, is very great.

I thank Dr. P. Ranjan Babu to have given me responsibility and status to serve dalits through this organisation. I tell you that I will provide education to our dalit children with sports and songs.

K. Rakesh, Warangal (Dist)

I have learnt some information from R. Raju, RCO, Warangal Dist and have come to work in the CARDS organisation.

After coming over here the elders like Amarnadh, Hrudaya Raj, Yesuratnam informed me about their commitment to the progress of dalits and the aim in establishing CARDS. I felt very happy to know about it.

After listening to it I have decided to extend my cooperation for our dalits in this society and the drop outs children. I whole heartedly inform you that I will visit village after village without any selfishness and reach the backward people and the parents who are not sending their children to school because of their lack of understanding, encourage them, see that the children are admitted to the Residential schools, make the children enjoy various schemes and scholarships of the government and see that all will go forward in education system or social service.

- 1) I have learnt that children are tools for social change.
- 2) I have learnt about Balabata education system.
- 3) I felt that education with songs and sports is very much suited to our dalit children.
- 4) I liked much the way children are taught along with work by growing kitchen gardens at home.
- 5) I also liked the cleanliness is taught to the children to keep their surrounding clean.
- 6) Sir Amarnadh told us about self

help life style, saving unions and the service done by CARDS for their progress I liked it very much.

7) I have decided whole heartedly to extend my service for the development of Balabata. To,

Dr. P.Ranjan Babu, Director, CARDS.
Sir,

I have learnt so many thing from CARDS. My hope is that there should not be any atrocities on dalits. I feel that women should have equality in the society. But the present society is not doing so. We should extend our cooperation for the progress of women. Then only the respect for women will grow. With CARDS organisation, every one is leading equal life without any differences. As part of my duty, I tell the students that if they study in Balabata, they will become great. As I am working in Balabata I came to learn how to speak to others. I have learnt from CARDS how to enlist voters and issue voter cards as Booth level officer, make the people know the things they do not know, i.e make the people know various welfare schemes provided by the government Now I am working with Srama Mitra Group, which is a part of Mahatma Gandhi Natianal Rural Employment Security and see that they are paid their wages. CARDS organisation has recognised my services and made me D.O. People believe that I will do any work or help for them. We learn by listening to others. We have to inform others what we learn. It is the great skill of human beings. It is a good quality to help others. I have decided be respectful with everybody in the society. I tell every one that there should not be discrimination or hatred and all should live together with good will.

Radapaka Raju, Warangal.

I joined Balabata two years ago. There are 25 D.O's with me. They are

working well. After joining CARDS and working with Balabata I have learnt so many things. This year I made an effort to see an old woman had an eye operation. They went to a private hospital for tests. I went to their home. They told me that the private hospital demanded Rs.8000/- But I took her to the Govt. Hospital and saw that she was operated on. The expenditure wasonly Rs. 500/- including bus charges. They felt very happy. I told her that

I am working in CARDS and its director is Dr. P.Ranjan Babu. They greeted me with folded hands. The reason for taking up such good activity or help is the good thinking that CARDS has inculcated in me. I hope that CARDS will do so many beneficial works for the poor. I have done so many good things in these two years. But I cannot quote all those things in this paper.

David, Kareemnagar.

I do not know the backwardness of dalits is the society before I joined CARDS organisation. I came to know from CARDS that dalits have power to march forward politically, socially and economically. For it we have to make effort through Balabata for our dalit society, people, political leaders, headmasters are appreciating the services of CARDS for bringing consciousness in dalits. This year the headmasters gave study certificate in advance for the dalit students so that they can join Residential Schools. The parents are realizing the dalit children's interest for higher

studies through Balabata. This Year students got seats in Residential schools through Balabata. Dalits are becoming educated through the meetings conducted every month for ACO, RCO, DCO, DO's training classes to make them know what can be done to the society by us. Parents of the children are accustomed to savings and are able to learn through CARDS that we are inferior to none and nobody is superior to us. People are recognising me as a social servant. This is what I want to inform to CARDS.

Gorre. Jacob, Kareemnagar.

I appointed 25 D.O's in two mandals. I adopted every village for the progress of dalits' education and preparing a list of 4th and 5th class students I am trying to join them in the Residential school. For the sake of dalits' development I distributed vegetable seeds and informed them how they can be benefited by utilising them. I am conducting Balabata to encourage the drop outs and see that they join schools with the help of D.O's.

K. Rajesh, Warangal.

I am Jyothi. I am working as ACO in CARDS. In my jurisdiction there are 25 Balabatas. I am working in the tribal area. If I want to go to visits there will be no transport facilities in the Konda Jaathi tribal area. There are no buses and autos. Bus runs one day only. When I went to that area and started Balabata, the elders and people of that village come to participate in the Balabata. When I go to their villages, I stay there for two, three days and train them in drill, songs

and sports. I got so much of recognition for working in Balabata. I am very happy as I got this opportunity to work in Balabata with the blessings of Dr. P.Ranjan Babu.

1) In our society justice is not done to women. What can we do for providing justice to women ?

Ans: People in the society should shed their cruelty. We should cultivate the feeling of brother and sister in the society. We should behave cordially towards women. Women should be respected. Our tradition is respecting women. Our India is a country which has ancient culture and tradition in the world. So we have to respect women and treat them as our sisters.

K. Jyothi, West Godavari.

I, Srikanth, have learned somany good things in CARDS. At the same time in Balabata also I came to know so many things which I didnot know so far. What I learned in Balabata is that those dalits children who are educated should help other poor people in the society. With Balabata I have got understanding. There are so many dalits in our village, mandal and district. I will inform them about Balabata and make them learned. I will tell the dalit and poor children about edcation and many more things which I have learned in Balabata. I also make the drop outs understand the importance of education.

Srikanth

The Golden paths laid by Balabata for future Generations,

I am working as RCO in the Nandigama region of Krishna district. I am K. Jayapaul. I have been working in Balabata since 2000. I have worked as DO for 6 years and as RCO for 8 years. I appointed three ACO's for Jaggiahpet and all of them are working well.

I am taking Balabata education system very close to the people. I am teaching my best to the dalit children and turning them to wards study. I am informing them about CARDS and Balabata which is a part of CARDS to the people and children and encouraging them. In every village I am talking to the DO's and parents. In these days when people are buying education, it will be greatly helpful to the future generation to teach while study.

If bright future is desired in childhood, it is only attained with social progress. Dr. P.Ranjan Babu's thinking is when education has become costly, the establishment of Balabata is a great thing for dalit children. In this background, this Balabata programme is a boon to SC and ST's.

I am extremely happy to conduct Balabata to be inspiration for future generations and see that these children reach greater heights. In conducting Balabata there are some problems to be faced we have to speak with each and every one amicably. Every one believe that they are paying higher wages. We have to speak to them patiently and skillfully and turn them towards Balabata with proper suggestions. As part of social service if we participate in every social aactivity along with village officials Balabata will be an example for later generations. Balabatas should be conducted selflessly. Balabata's providence should be taken into people. If good area co ordinators are appointed and all work unitedly Balabata will become a good bata (Path) in the days to come.

So many social activities are being done through Balabata we have to create understanding in the public. Dr. P.Ranjan Babu is to be congratulated for taking up such great activities.

K. Jayapaul, Krishna (Dist)

Opinions of Balabata Students

In our village CARDS organisation has established Balabata. In the morning our teacher teaches us oath, Balabata songs and drill. In the veening songs along with sports are taught. My self and other Balabata children do the home work given in our school. Everyday I go to Balabata. In Balabata I have learned discipline. Our teacher told us that all the children should come to Balabata with neat clothes and combed hair. I studied with perseverance and joined Residential School. My regards to Dr. P.Ranjan Babu for giving us such a great organisation.

P.Manohar, 4th Class.

My name is Prathyusha. I joined Residential School, Racherla. Now I am in 6th Class. I want to get progress by studying through Balabata. Through Balabata, God has shown me a good school. I am happy. Now I am training children in sports and games.

D. Prathyusha, 6th Class.

I am in 4th Class. I am preparing for Residential school examinations from now it self. I soured the seeds given by

you two months back. Now they have grown. They are now yielding vegetables. Our vegetable expenditure is evaded. My mother is appreciating me. Seeds were given to my colleages also. Their parents also are very happy. I am able to learn about growing kitchen gardens at the young age only because of coming to Balabata. Many thanks for you for giving me this opportunity.

A.Nihal, 4th Class.

Through Balabata the poor students are acquiring discipline, sports, songs. So they are showing interest. The parents also are encouraging their children. They are sending their children to Balabata regularly. With this Balabata so many little children are studying well. There children are behaving well with good habits and discipline. These Balabata children are very happy.

K. Kasalaiah.

Picture showing the distrivution of Provisions and Clothes to Balabata D.O's

Opinions of Parents of Balabata Children

Our son Vamsi goes to Balabata everyday. He sowed the seeds given in Balabata in our backyard, watered them everyday and grew them. Now they are yielding vegetables our son is showing keen interest in studies and growing kitchen gardens. He is keeping the surroundings of our house very neatly. He is creating awareness in us about cleanliness. Though he is very young, he is studying well and creating awareness in us about greenness and cleanliness. We feel very happy when we look at our child. All this is possible only because of starting Balabata in our village by you. My thanks to you.

K. Jyothi, Adilabad (Dist)

Our Children go to Balabata tuition in the evening after the school work is over. They are doing their home work well. Balabata ACO Sir joined our child in Residential School. He got seat in 6th class. Now he is studying 10th class.

R. Niswal.

To
Director Sir,

My name is Rayapati Kumari, Our children are well in advance not only in studies but also in sports and songs. There seems to be a new change now. The growing of trees through growing kitchen gardens is very good.

Rayapati Kumari

To Respected Director P. Ranjan Babu, Sir,

With Balabata programme all the students passed with good marks last year. Children are studying well with this programme.

Kapil Radhika, Duggondi.

On behalf of Balabata, your activist took us to the govt school and inquired about the studies of the children and why the teachers are not teaching well. So now the teachers are taking care of our children's studies. I am an auto driver. The Balabata DO is taking care of our child instead of me. The future of our students is good. I hope that the Director, Balabata will make so many children get education.

J.Chiranjeevi, Warangal (Dist)

Respected Director Dr. P.Ranjan Babu CARDS, Guntur.

Namaste,

In our pullalaCheruvu Village, our son joined the Balabata started by you and studying well. Previously our son was not in the habit of going to school. He used to roam about the streets in our peta and did clamour in our house. He used to play in the dust avoiding to go to school. Though I used to punish him, he used to avoid going to school by saying something. Balabata is started in our palem. It is good to send my child to Balabata in our house.

Opinions of Head masters

The Balabata system established by your CARDS is very good. Your care for dalit students is very good. You are creating in them awareness about greenness and cleanliness besides studies. Balabata children are well ahead of other children in cleanliness. My staff members and myself feel very happy as the Balabata children come to school neatly and keeping the school campus neatly seeing than other students are learning many things. They are showing good skill in studies. Balabata system is good. My thanks to you.

U.P.S. Kawal, Adilabad.

As your CARDS is using the D.O's to make the dalit children do their homework in the evening, our school children are behaving well with discipline. I wish that you will conduct so many other programmes and do your best to serve the poor. My regards to you CARDS organisation.

L.Prabhakar Reddy, Uppugallu.

To, Respected Director Dr. P.Ranjan Babu, CARDS.

My thanks to you for conducting Balabata in our village. I went to Balabata. Our school children are behaving well with discipline and learning oath, songs sports and drill. They are also doing their home work well. Previously they used to be unclean. Now they are very clean and neat. I feel that they are fortunate to be joined in the Residential school. My heartfelt thanks to you establishing such a great programme.

P. Jaya Swathi, Prakasam (Dist)

To, Respected Director Dr. P.Ranjan Babu, CARDS.

The service you are doing to the dalit christians and Backward children is wonderful. The issues I have seen personally in Balabata are:

- 1) Distributing clothes to dalit christiian childre.
- 2) Distributing provisions for them.

As I have seen them personally I express my heartfelt thanks to director Dr. P.Ranjan Babu for taking up such social programmes.

P. Bhikshapathi, Warangal.

To, Respected Director Dr.P.Ranjan Babu, CARDS.

I came to learn from the DO who is conducting Balabata. DO's are source of progress for dalits in the villages. We have learnt that we can achieve all kinds of victories with education and discipline. Through Balabata in our village 220 students joined Residential school upto now. This makes me happy. The organisers of Balabata should encourage the DO's in the same manner and encourage dalit children.

J. Mallikarjun, Warangal (Dist)

CARDS Balabata Programme.

"Distribution of Clothes to DO's in Santhamanguluru region.
'CARDS' helping hand for total literacy.

MPP Yedukondalu and Representatives of 'CARDS' distributing clothes.

Puttavari palem (Santhamaguluru): Sri Nanneboina Yedukondalu, MPP said that CARDS, voluntary service organisation is to be praised for extending its helping hand to make all the future citizens of our state total literates. In the Puttavari palem higher secondary school, clothes were distributed for 25 village level service activists of santhamaguluru and Ballikurava mandals on Saturday as a Christmas gift. Speaking on this occasion, HrudayaRaju, Divisional co ordinator, Guntur Dist said that their organization gives importance and works for the sake of thepoor living in all regions in the state. He also said that Dr. P.Ranjan Babu started this programme in 2000. This literacy movement which is being conducted under his presidentship is now extended to all villages. T. George, Santhamaguluru, is Regional co ordinator said that they are creating awareness about service programme to the 8,9,10 classes students in all dalit wadas and are trying to eradicate illiteracy.

Sakshi 13-12-2014.
