**The Residential school experience of Balabata Children During the year 2014 - 2015**

Her name is K. Anoosha. She got admission in 2014 at Residential school in Mallapur Village of Dharmavaram Mandal in Karim Nagar District. She has no father. Her mother Mallamma is much happy over this. Local ACO of Balabata has helped her in getting all required certificates for admission. Since she joined hospital she had never been hostalgic. Because at hostel she felt like at home. During her visit in Dasara holidays she amazed all with her good posture. Being an RCO, I asked her if the hostel life was good. She told me how she had felt at hostel. Here at home, I was never in good health, not able to get medicines, not able to wear sweaters and there would be no pocket money. There at hostel she is in a group of 12 children who are also from Balabata. The principal asks them to sing songs. they sing Balabata songs also. When she is asked about the songs she has told about Balabatas, At the events conducted in the school, she has bored prizes in songs and dance events. The children are

getting nutritious food. Now, I sincerely advise to the children of 4th and 5th class to attend Balabata school regularly. There they train up the children to get admission in residential schools. The RCO has told that the government is spending huge amounts for Dalits and they should make use of it. The friends accompanied Anoosha in her return to the school. They made fare well to her. She sloganed "Jai Balabata" and moved away in the bus.

I am working as D.C.O of Giddalur region. I have known the change that came across the children who are admitted into residential schools through our Balabata. Peddi Rangamma D/o Chittibabu was a student of Government school. She was not regular to school as she had to go for labour frequently. She asked me to get her admission into residential school. As I couldn't put up with the misery the girl experienceing, I admitted her in

Racherla Gurukul school. In the past she didn't know how to write a letter but now she has learnt to write well. She tells that she isn't lagging behind in any aspect at her school. In another case it is Mr. Jagadeesh. This fellow goes to school but hasn't learnt anything. I called his parents and told them that I would admit into gurukul school. He was admitted. During his Dasara vacation, he visited his parents. He wasn't happy with the

environment at home he wished to go back to his school. He would tell his parents that he wouldn't come to them even though he fell ill. He would come to them only when they promised to send him back again to his school. The principal appointed him leader of his class. Now he is studying well. On my part, I would visit the Gurukul school twice a month and know about the position of the children.
